1. Manufacturing & Engineering Strength

Nailvue bridges the industry gap between cheap, brittle machine-printed plastic nails and unscalable individual Etsy hand-painted sets. By combining automated virgin ABS injection molding with an in-house artisan studio of over 120 skilled nail technicians, we produce salon-grade gel finishes at industrial scale.

Technical Parameter	Nailvue Salon Standard	Standard Industrial Commodity
Base Tip Material	100% Virgin Polymer ABS (Odor-free, non-toxic)	Recycled PS/PP (Rigid, stress-whitening)
Thickness Profile	0.3mm flexible cuticle / 1.2mm reinforced apex	Uniform thick/flat plastic (high pressure on nail bed)
Finish Layers	5–7 layers of salon UV gel + dual diamond topcoat	Single pass CMYK industrial UV flat ink
Wear Durability	21+ days scratch-proof; reusable 3–5 times	3–5 days before topcoat peeling or chipping
Special Finishes	9D Magnetic Cat-Eye, 3D Sculpted Gel, Mirror Chrome	Flat printed decal reproduction only

2. In-Stock Product Collections (150+ Designs)
